

Clearing your Browser Cache

Your browser's cache stores certain information of webpages you visit on your computer or mobile device so that they'll load more quickly upon future visits. However, the stored cache may prevent you from seeing updated content. You can fix this simply by clearing the cache. See below for help with clearing browser cache:

Google Chrome

For help with clearing browser cache in Google Chrome, visit their official support page [here](#).

Firefox

For step-by-step instructions on clearing cache in Firefox, visit their official support page [here](#).

Edge

For help with clearing cache in Microsoft Edge, visit their official support page [here](#).

Safari on macOS Devices

For help with clearing browsing history in Safari, visit their official support page [here](#).

Safari on iOS Devices
